

Stable Offshore (USD)

Report as at 31 Dec 2023

ANAAN
ASSET MANAGERS

1. Investable Universe

The fund has the flexibility to invest globally in any currency of its choosing, primarily focusing on global fixed income instruments and alternative investments that exhibit lower levels of volatility, comparable to that of fixed income instruments. This investment approach allows us to seek out attractive risk-adjusted returns for our investors while maintaining a prudent level of risk management.

2. Primary Objective

Our investment strategy involves primarily investing in hedge funds that have delivered above-average returns while maintaining a low downside standard deviation (STD). This approach aims to make our fund an appropriate investment vehicle for clients who seek to draw income or capital over the short term. Our objective is to compete with and outperform savings accounts and money markets, with a projected USD compound annual return (CAR) net of fees of approximately 7% per annum. Although the projected CAR of our fund may be lower than that of Moriah Global and Equities Offshore, our projected downside STD is significantly lower, almost comparable to that of a money market account.

3. Investor Profile

Investors that seek a relative low volatility and stable growth. This investment will be suitable for individuals who wish to draw income and for funds used to generate income for the investor.

4. Managers Comment

Review: The fund returned 0.44% for the month while the MSCI World Index returned 4.58% over the same period.

Outlook: For more information, visit www.kanaantrust.com.

5. Competitive Advantage

Kanaan asset managers has a proven track record of successful investments in foreign funds. Our investment approach is supported by a robust infrastructure that enables us to conduct thorough research and due diligence on the funds in which we invest. This rigorous process is a critical component of our fund of funds management strategy, which has contributed to our consistent success in achieving our investment objectives.

6. Investment process

Following a comprehensive due diligence process, our fund selectively invests in global fixed income instruments and alternative investments with lower levels of volatility. Additionally, we invest in strategies that we believe are most likely to meet or exceed the investment objectives of our portfolio. Our investment approach is underpinned by a thorough research and selection process, which enables us to identify and invest in opportunities that align with our investment objectives and risk management principles.
