

Stable SA

Report as at 28 Feb 2025

ANAAN
ASSET MANAGERS

1. Investable Universe

The wrap fund invests mainly in fixed income instruments, government stocks, industrial stocks, and income funds.

2. Primary Objective

The fund intends to compete and beat South African savings and money market accounts with a projected CAR net of fees of more than 5.5% per annum. Though the projected CAR of Stable SA of $\pm 5.5\%$ per annum net of fees is almost two times more than the interest rate of the local banks its Down STD is almost as low as that of a money market fund. The returns are mostly interest related and therefore taxable like that of a savings account.

3. Investor Profile

Investors that seek a relative low volatility and stable growth. This investment will be suitable for individuals who wish to draw income and for funds used to generate income for the investor.

4. Managers Comment

Review: The fund returned 0.56% for the month while the MSCI World Index returned -0.74% over the same period.

Outlook: For more information, visit www.kanaantrust.com.

5. Competitive Advantage

Stable SA has been successfully investing in local funds. We have the proper infrastructure to conduct extensive research and due diligence on funds which forms a critical component of successful fund of funds management.

6. Investment process

After proper due diligence, the fund invests in SA registered global fixed income instruments and alternative investments with lower volatility and strategies who are deemed most likely to meet or exceed the investment objectives of the portfolio.
