1. Investable Universe

Though the wrap fund is Rand denominated, the fund invests only in locally registered offshore growth funds.

2. Primary Objective

This wrap fund consists, according to us, of the best locally registered offshore funds and will even do better than Equities SA Wrap over the medium to long term. Investors should however be aware of the negative effect of a weak Rand that is bouncing back over the short term as the underlying shares are mainly that of US companies and therefore USD based.

3. Investor Profile

Investors that seek to diversify investments in a managed offshore diversified portfolio of growth funds.

4. Managers Comment
